The Winter Palace is a building which you will never forget once you've seen it.

C) St. Petersburg is a city in the northwestern part of Russia. It is an important historical and cultural centre and a port. St. Petersburg lies about 400 miles (640 km) northwest of Moscow. D) St. Petersburg was founded in 1703 by the Russian tsar Peter I who was dreaming of a new capital for his new Russia. The land on the site was marshy and the climate quite cold. A lot of people died while building the city. The first building in the city was Peter and Paul Fortress which is now visited by thousands of tourists every year.

E) St. Petersburg is one of Russia's most important transport centres. Its port, the country's largest, is of international importance. Ships and steamboats connect the city with several western European ports in
